Microsoft Azure DevOps, Heroku, Netlify, Google Firebase

UI / UX
Figma

Java
Spring Boot

Version Control
Git

Testing
Test-Driven Development, Mock API Testing

Agile Methodology
SCRUM, Jira, Confluence

Professional Experience

Frontend Developer, *CIBC FirstCaribbean Bank*   03/2022 – present │ Remote, Contract
- Developed a CRM front end using React, TypeScript, and Chakra UI. Proper emphasis is made on following linting rules, documentation, accessibility, and testing.
- Worked alongside the product owner and scrum master by routinely leading backlog refinements, weekly demos, sprint reviews, and conceptualization meetings.
- Worked alongside the technical lead by routinely performing Backend, QA, and UI Design reviews and offering feedback on code and screen designs.

Freelance Web Developer, *ETI Designs*   06/2021 – present │ Remote
- Developed modern portfolio and eCommerce websites for small businesses, achieving 95% customer satisfaction and new sales revenue.
- Sharpened my expertise in full-stack design, development, and DevOps by creating several SaaS applications, found on my GitHub profile ⬈.

Full Stack Web Developer, *UWI Health Services Unit Pharmacy*   01/2021 – 05/2021 │ Remote
- Built an MVP eCommerce platform and CRM with a 36% faster loading time than the previous website.
- Converted UX/UI wireframe designs to documented web components using Nuxt.js and TailwindCSS.
- Worked with an agile team of 5 members, serving as Scrum Master for 2 sprints.

Education

BSc. Computer Science, *University of the West Indies*   09/2018 – 09/2021
First Class Honours, Dean's Honor Roll 2021
